# THE BUILDING BLOCKS OF LEADERSHIP

## COURSE OVERVIEW

This half-day open course will put in place the fundamental leadership building blocks. It is primarily aimed at team leaders or first-time managers, but would also be a good refresher for slightly more experienced leaders. The focus is on people leadership skills rather than strategy or other management competencies.

Making the transition from team member to team leader is a big challenge, so this course is a starting point for learning the key skills of leading people. It includes the basics of understanding your style, what to avoid doing, how communication makes or breaks relationships and introduces the concepts of emotional intelligence.

## WHAT YOU WILL GAIN

- How understanding your own personality can help get the best out of people
- The five leadership temptations to avoid
- Your preferred leadership style
- The differences between leading and managing
- Communicating assertively through emotional intelligence
